Introduction to Peer Instruction

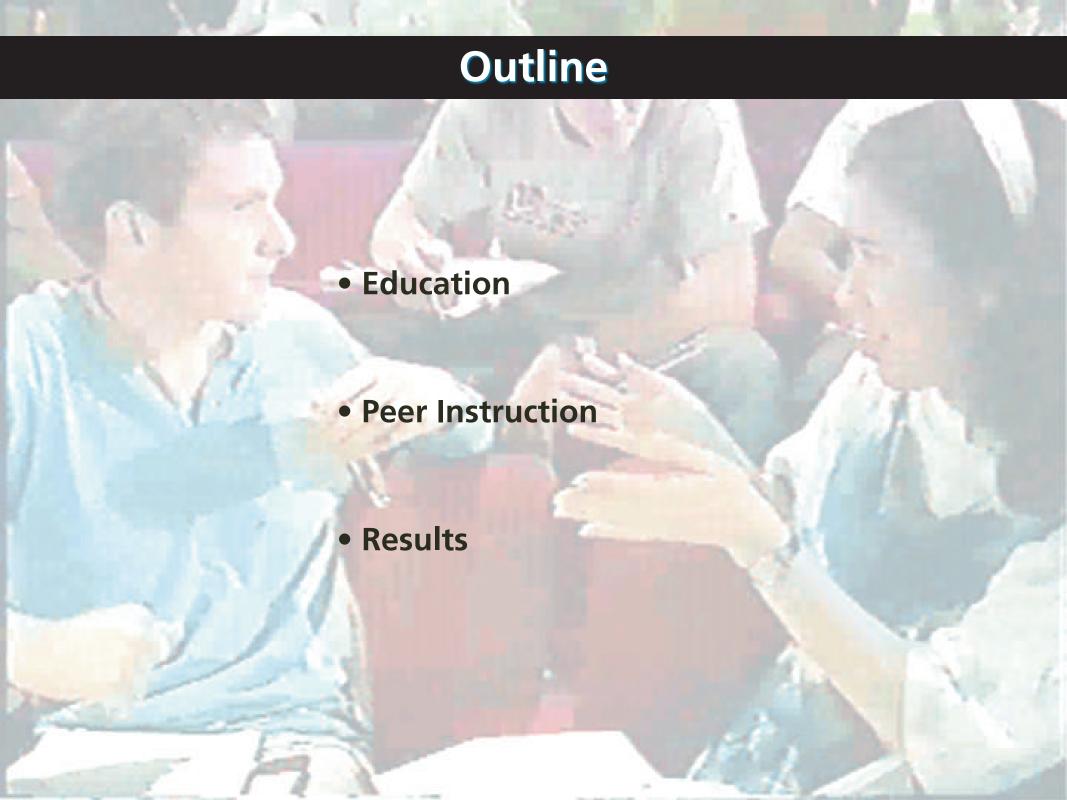

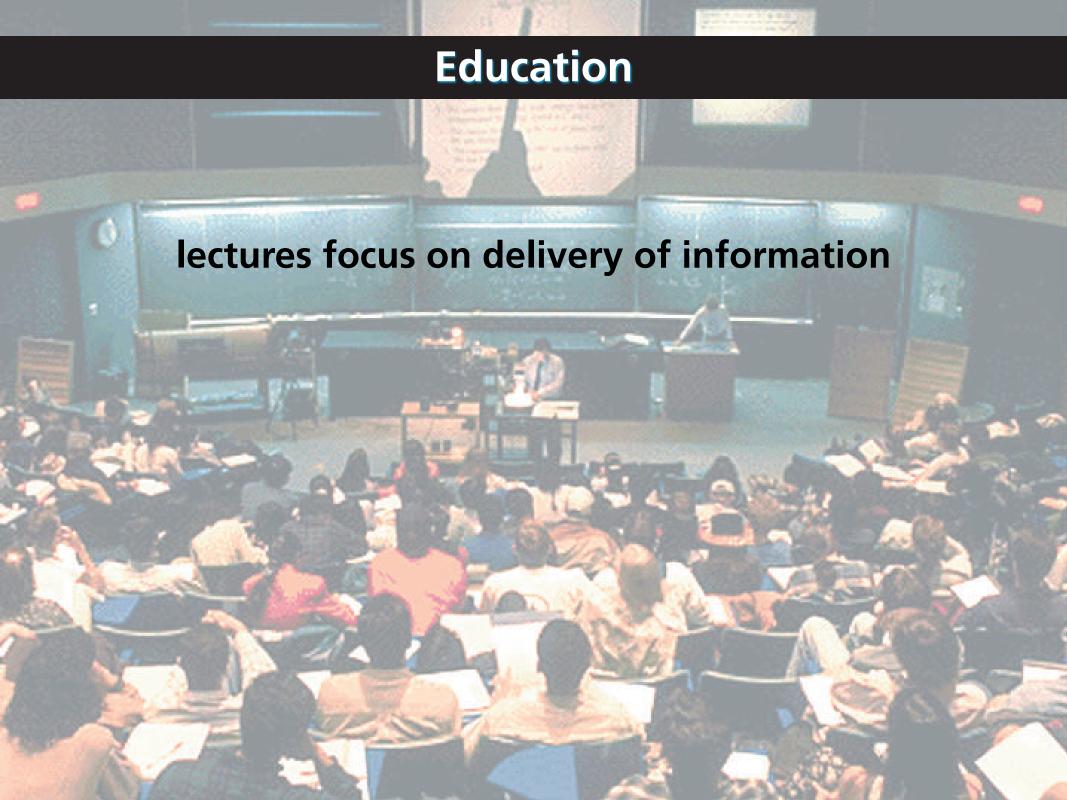

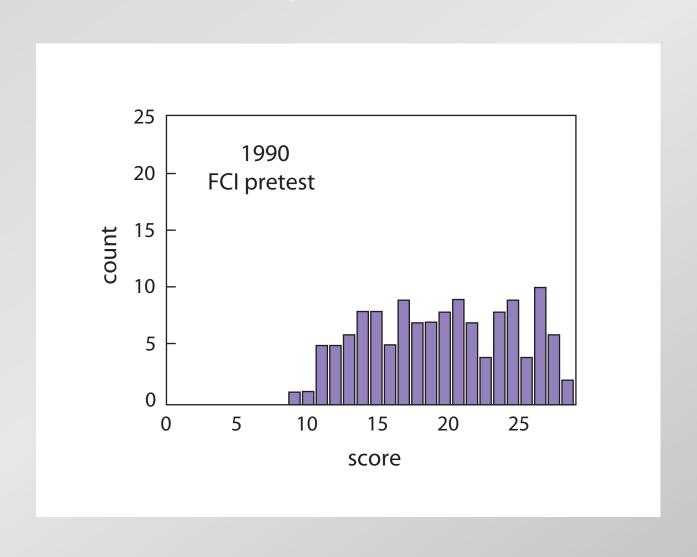

Outline Education

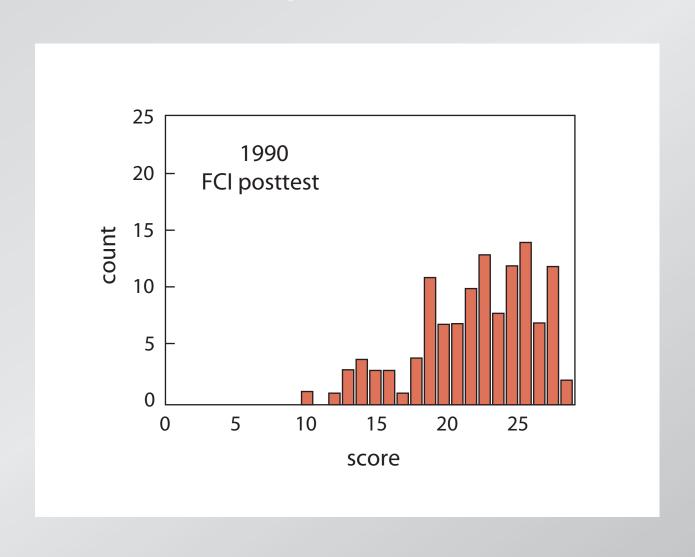

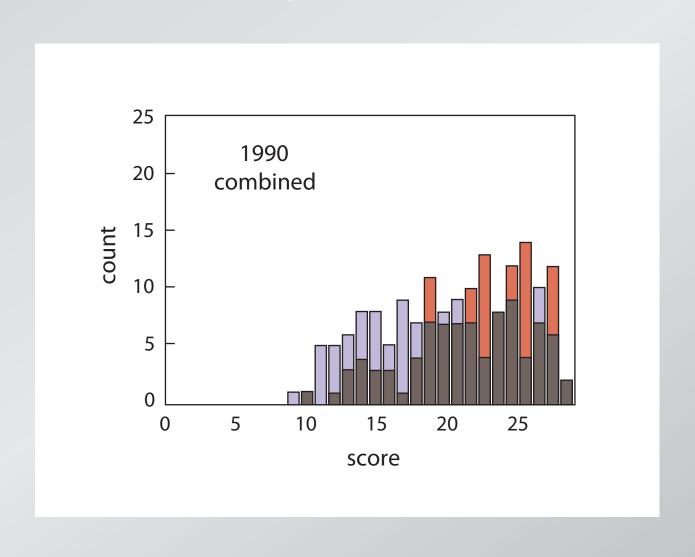

education is not just information transfer

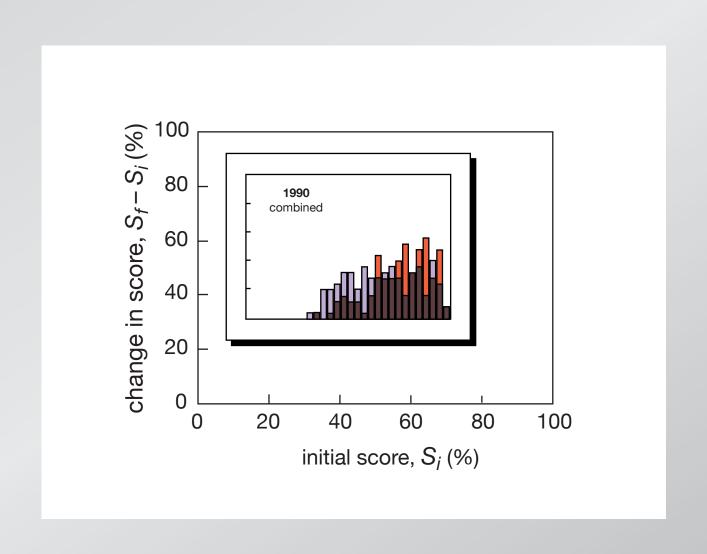

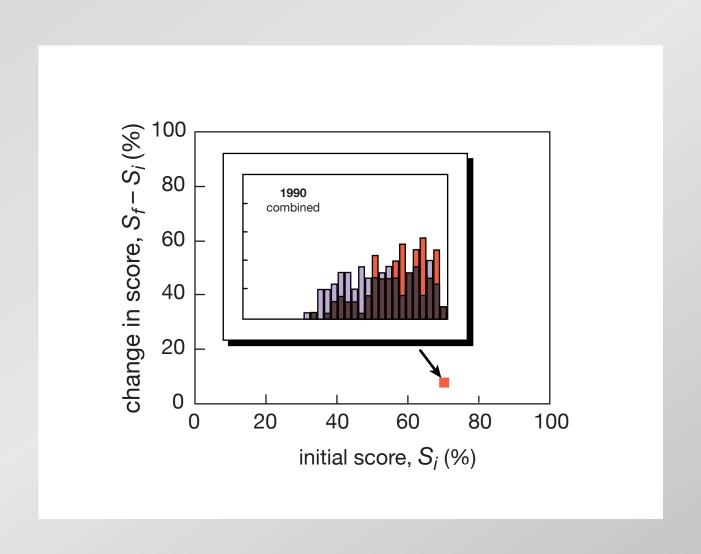

education is not just information transfer

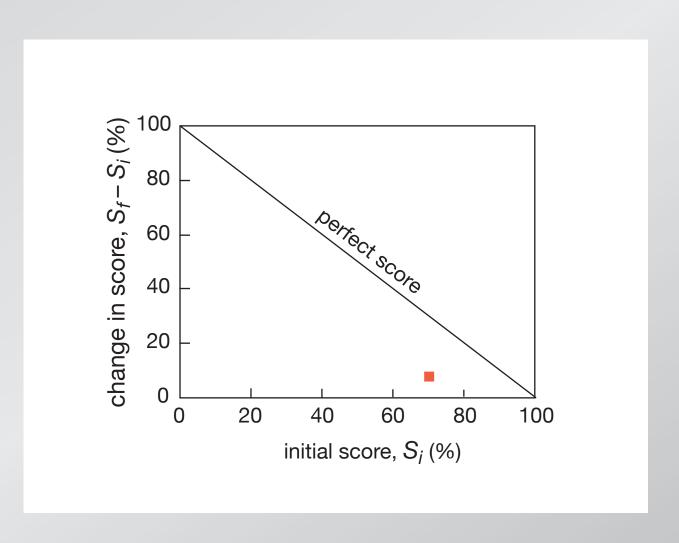

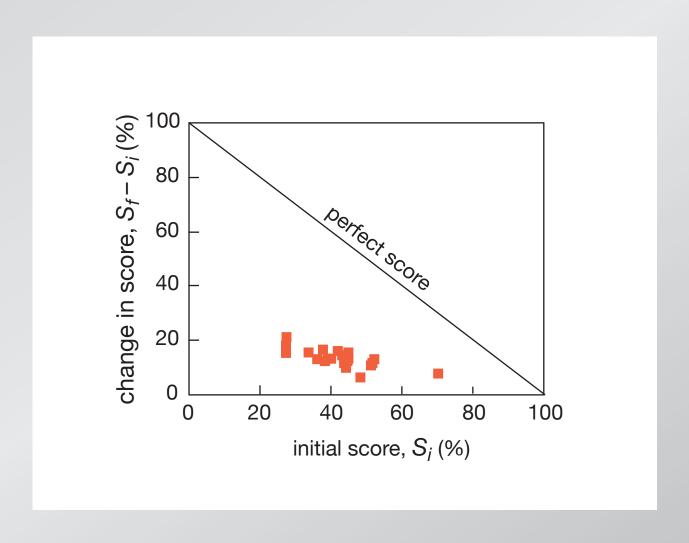

education is not just information transfer

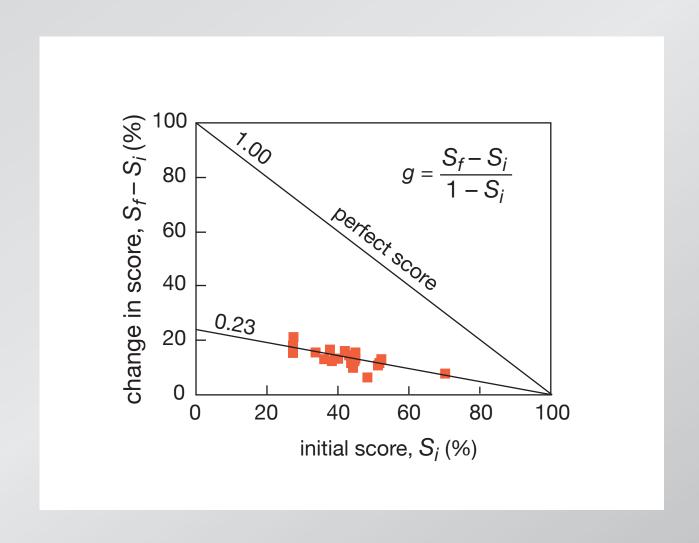

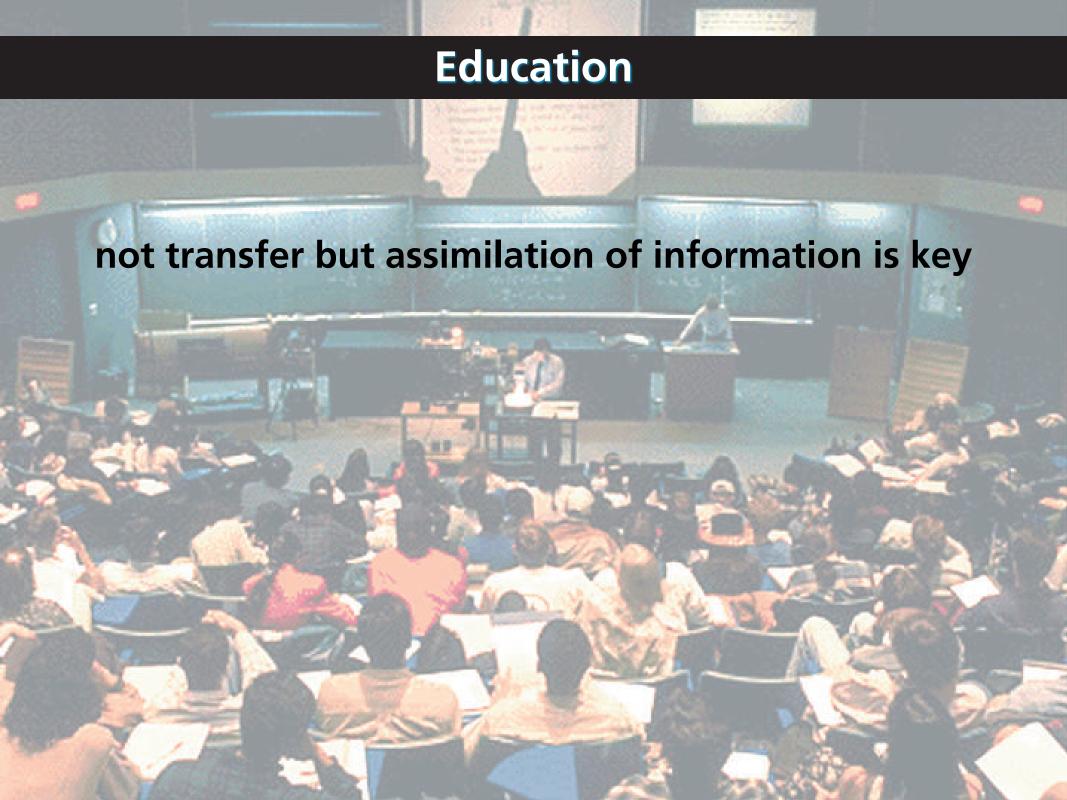

R.R. Hake, Am. J. Phys. 66, 64 (1998)

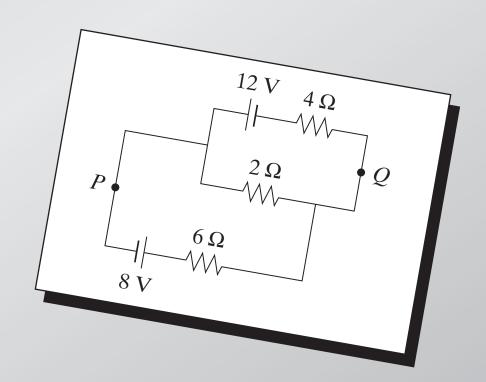

only one quarter of maximum gain realized

R.R. Hake, Am. J. Phys. 66, 64 (1998)

conventional problems misleading

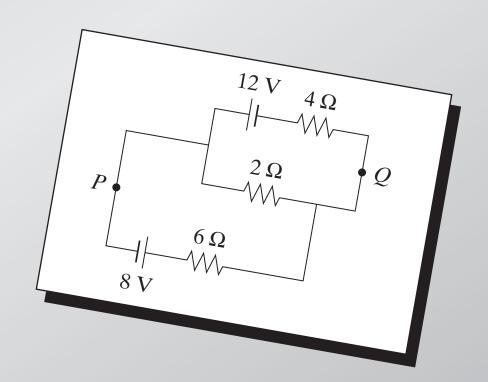

conventional problems misleading

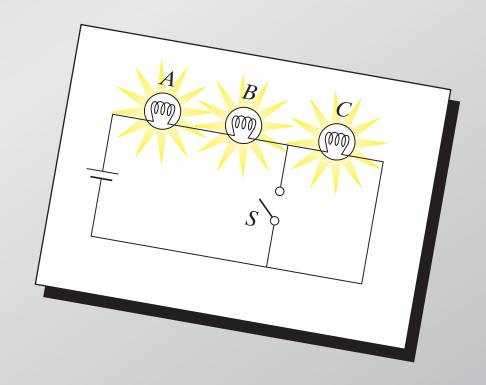

Calculate:

- (a) current in 2-W resistor
- (b) potential difference

between P and Q

are the basic principles understood?

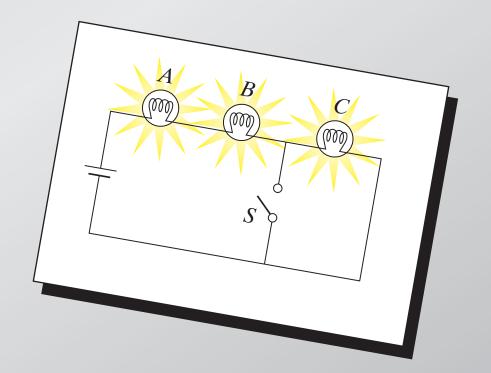

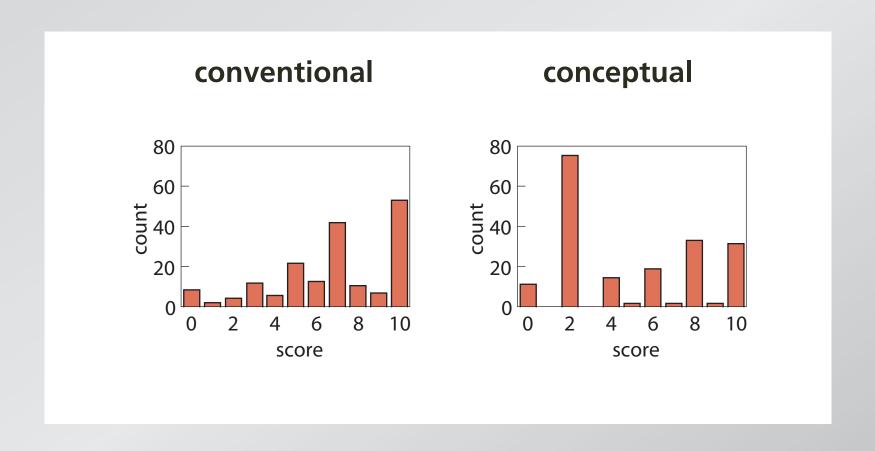

are the basic principles understood?

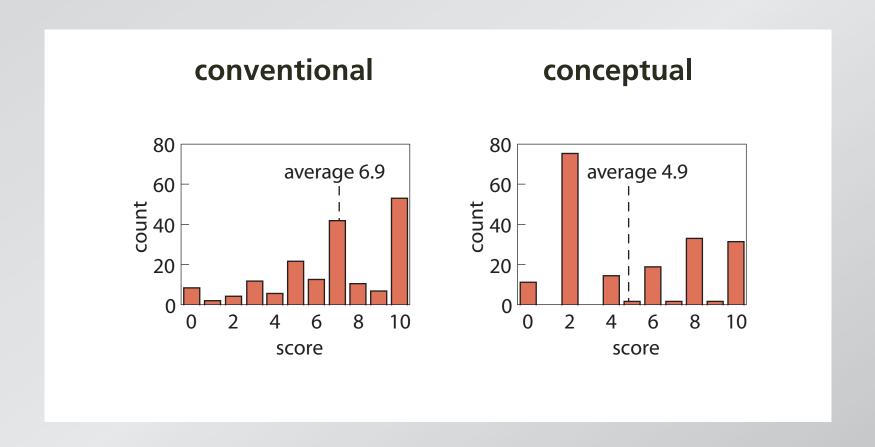

When S is closed, what happens to:

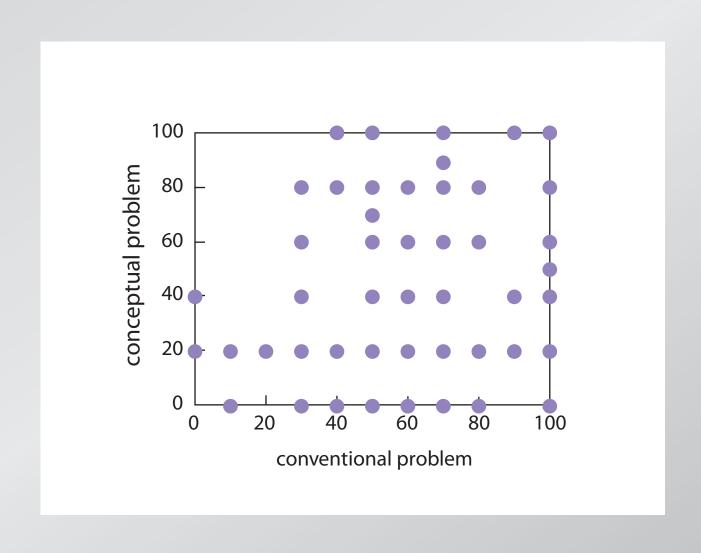

- (a) intensities of A and B?
- (b) intensity of C?
- (c) current through battery?
- (d) potential difference across

 A, B, and C?
- (e) the total power dissipated?

Give students more responsibility for gathering information...

Peer Instruction

Give students more responsibility for gathering information... so we can better help them assimilate it.

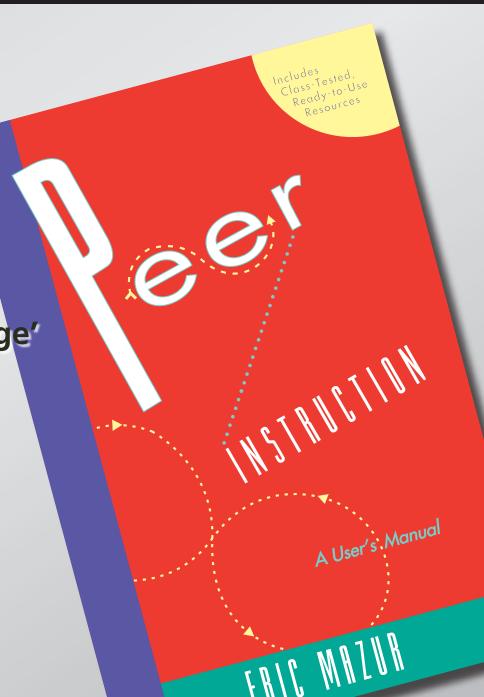

Peer Instruction

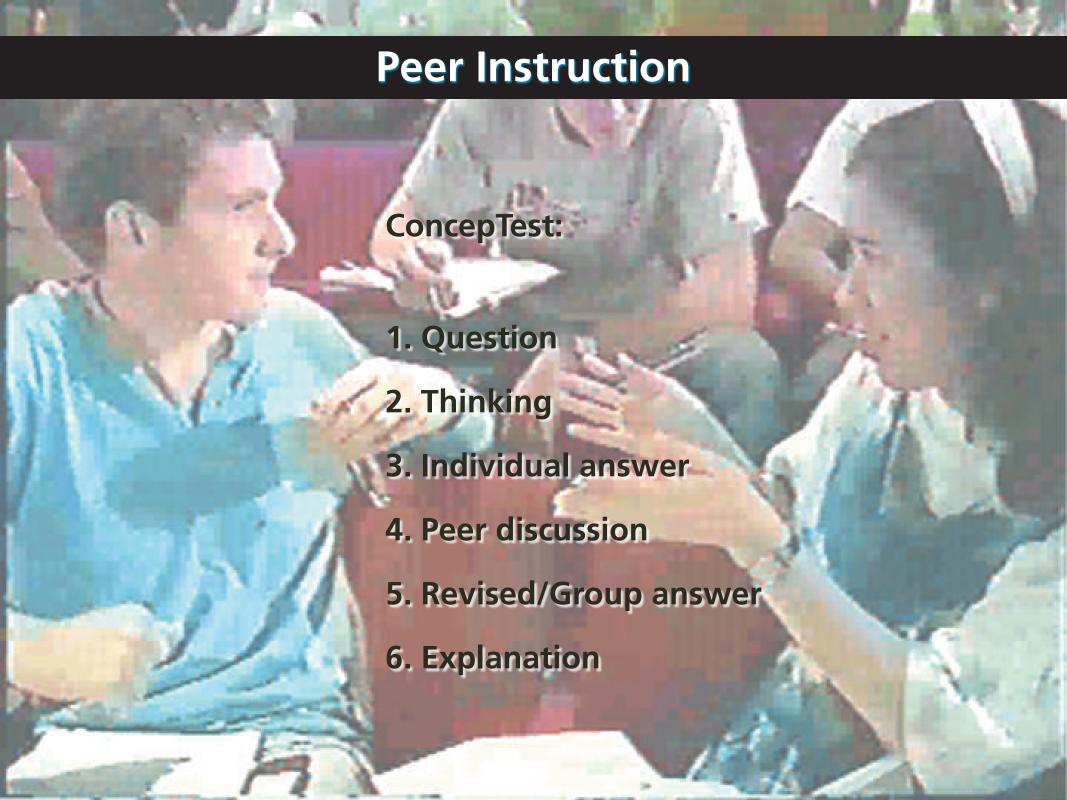

Main features:

pre-class reading

in-class: depth, not 'coverage'

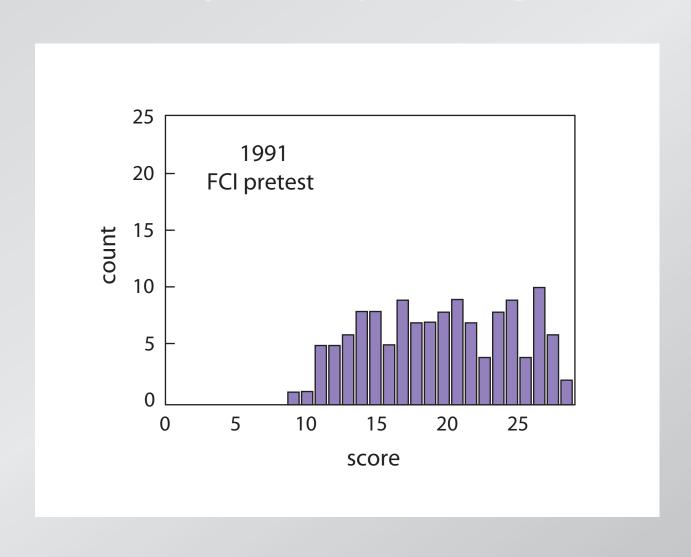

ConcepTests

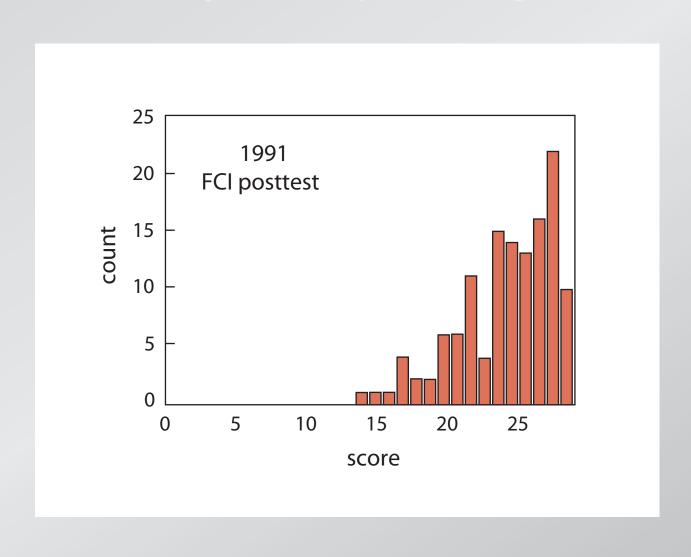

is it any good?

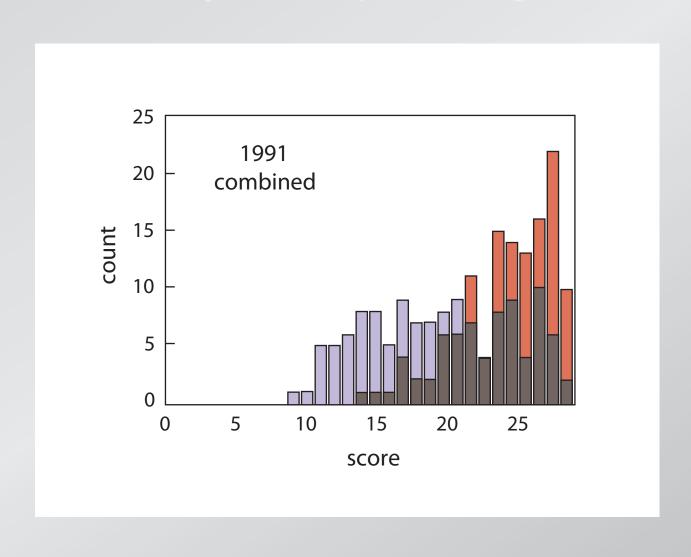

first year of implementing PI

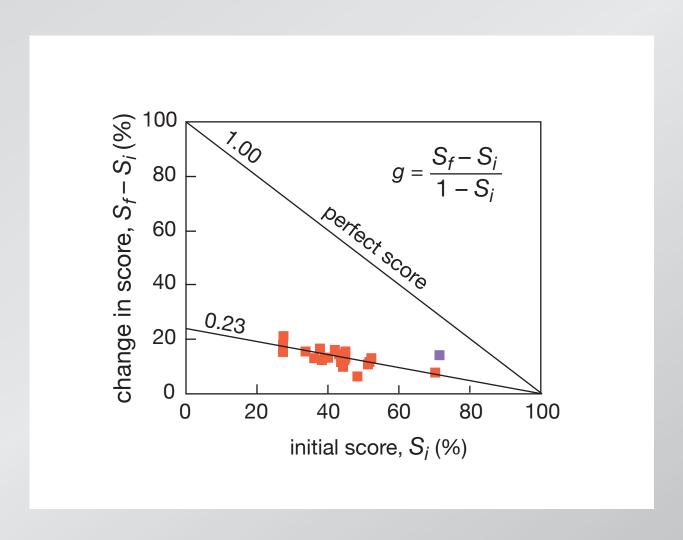

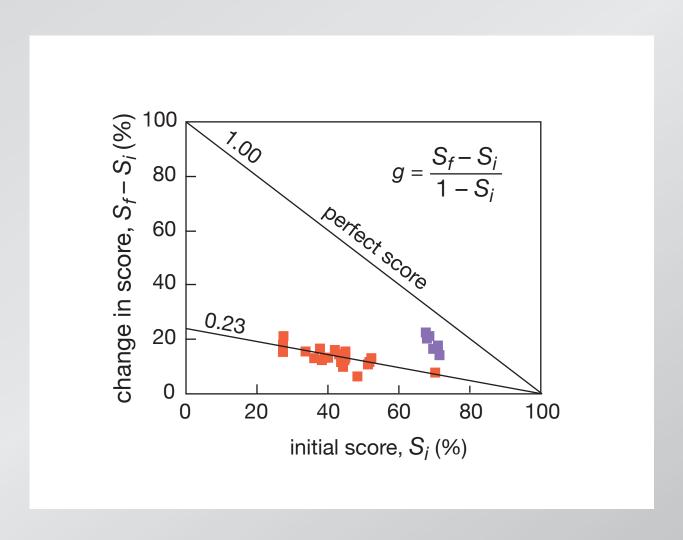

first year of implementing PI

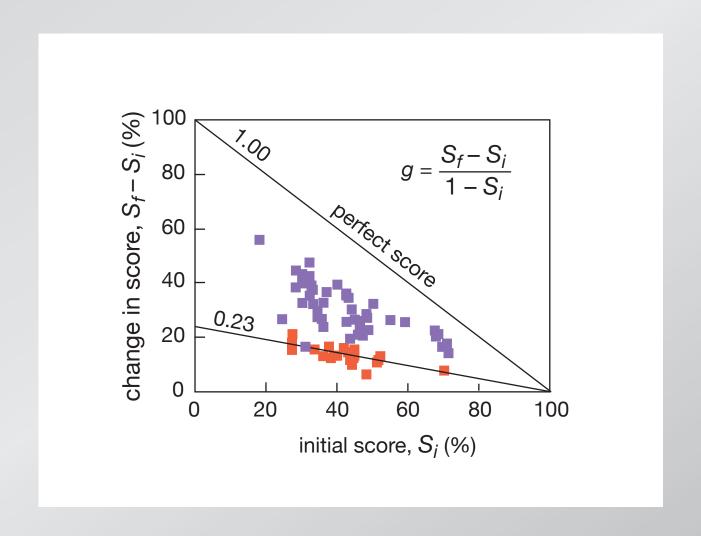

first year of implementing PI

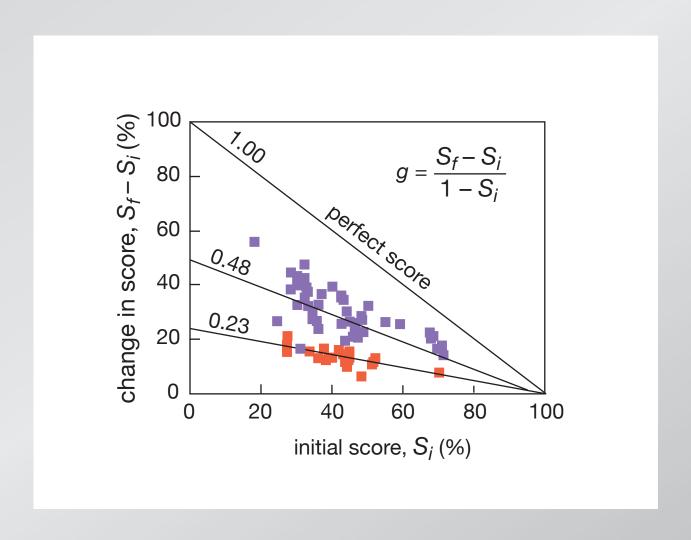

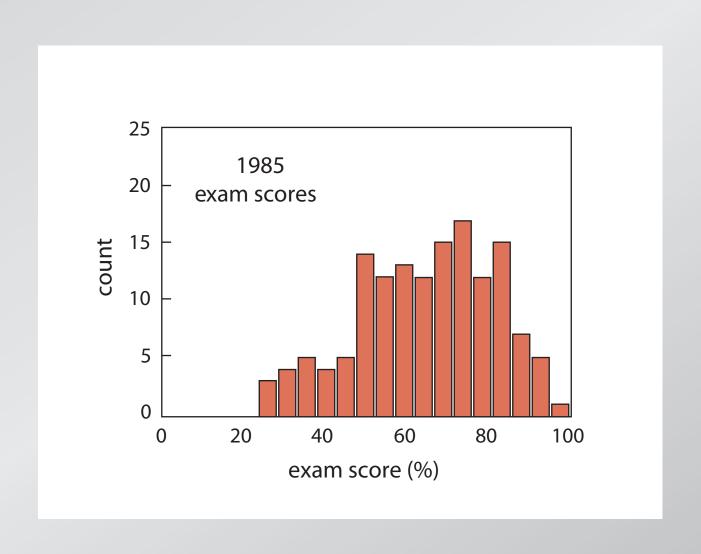

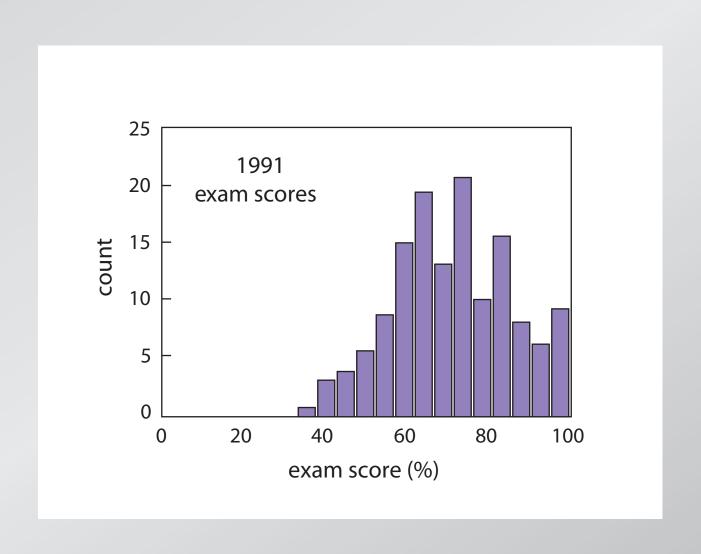

R.R. Hake, Am. J. Phys. 66, 64 (1998)

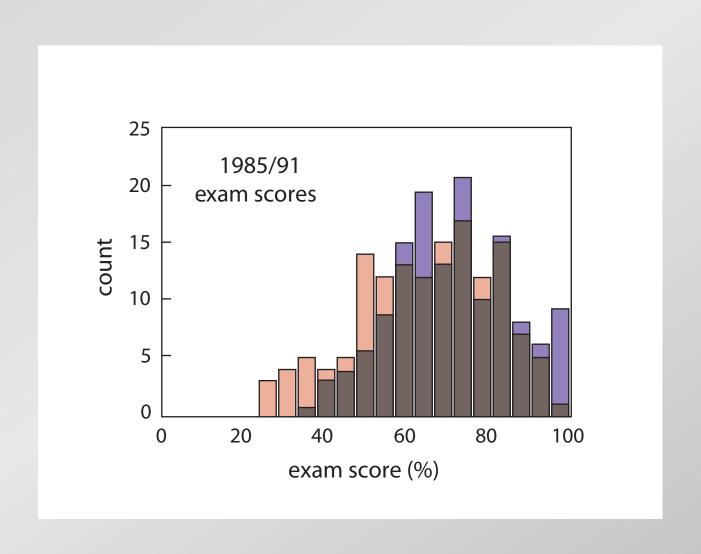

R.R. Hake, Am. J. Phys. 66, 64 (1998)

what about problem solving?

Summary

So better understanding leads to better problem solving!

Summary

So better understanding leads to better problem solving!

(but "good" problem solving doesn't always indicate understanding!)
