#### **Introduction to Peer Instruction**

VE

New Physics and Astronomy Faculty Workshop American Center for Physics College Park, MD, 6 November 2008

### My message

shift focus from "teaching" to helping students learn

### • Education

## Outline

• Education

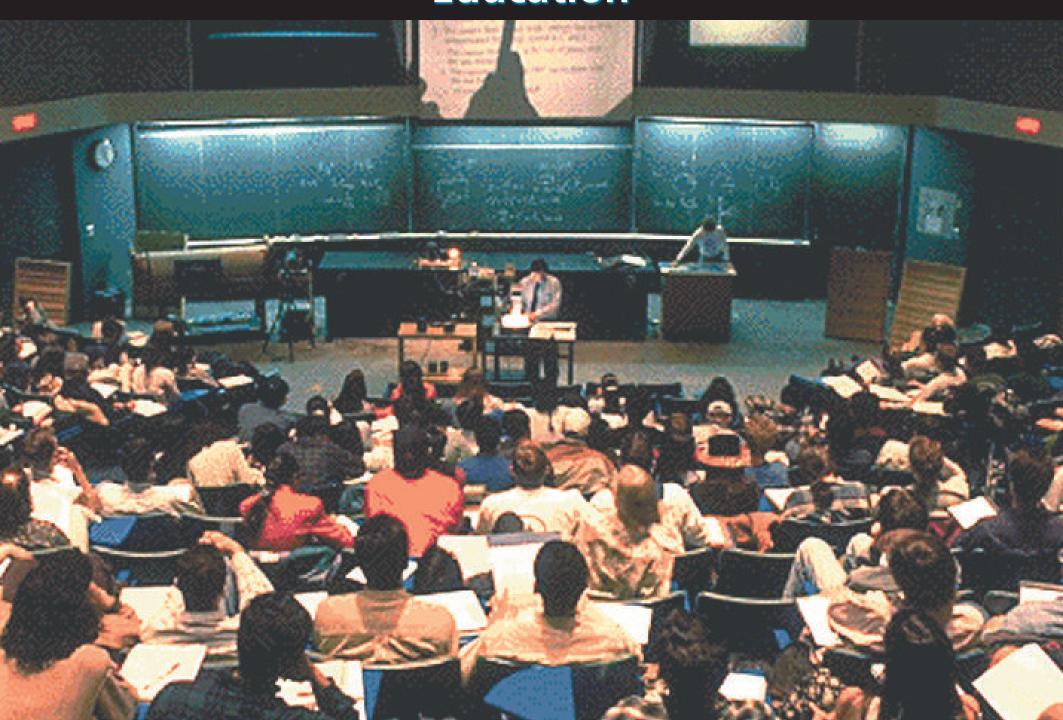

Peer Instruction

### Outline

• Education

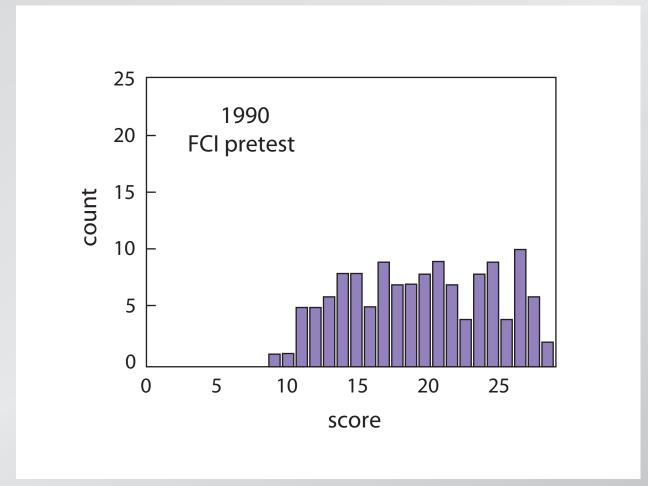

Peer Instruction

Results

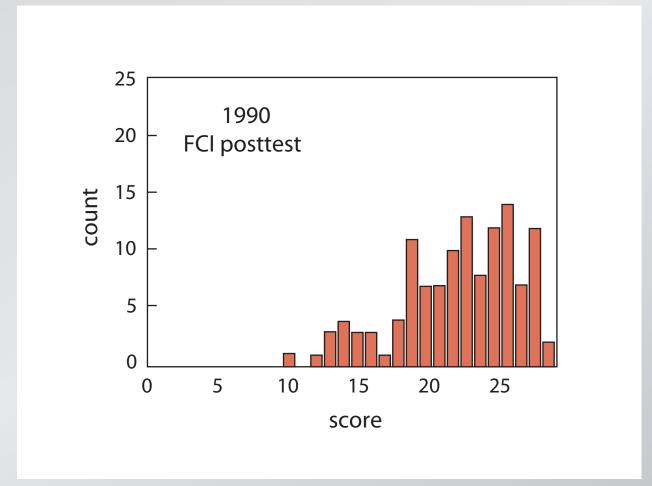

### lectures focus on delivery of information

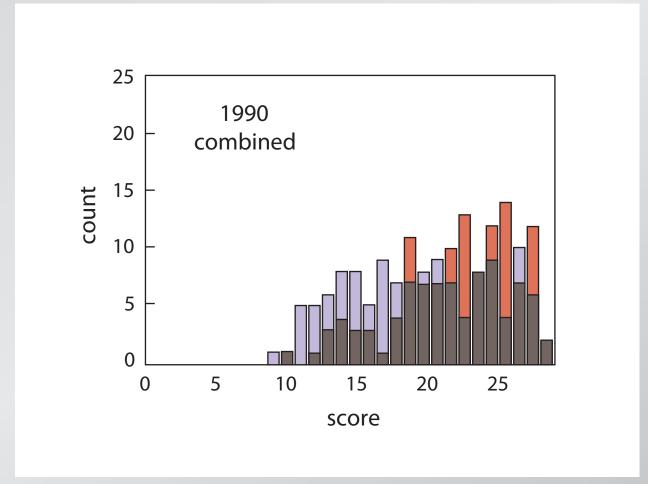

#### education is not just information transfer

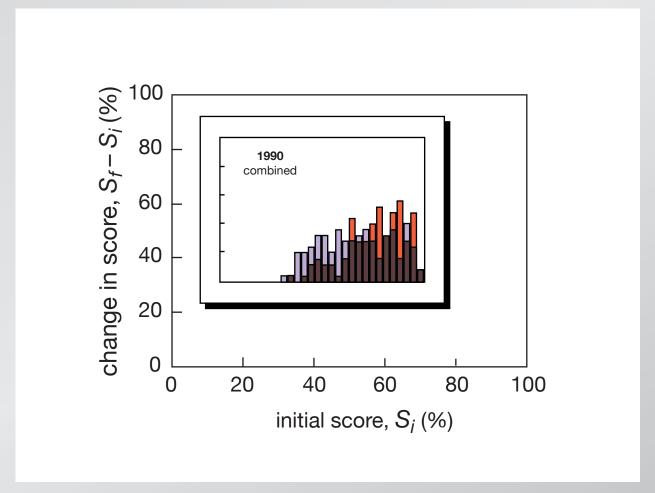

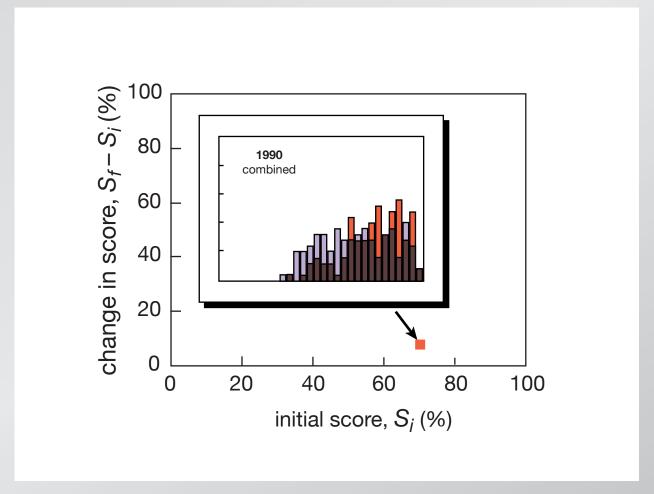

#### education is not just information transfer

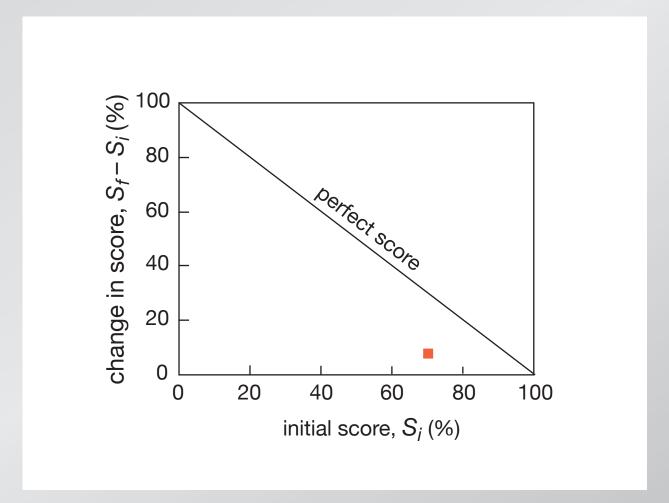

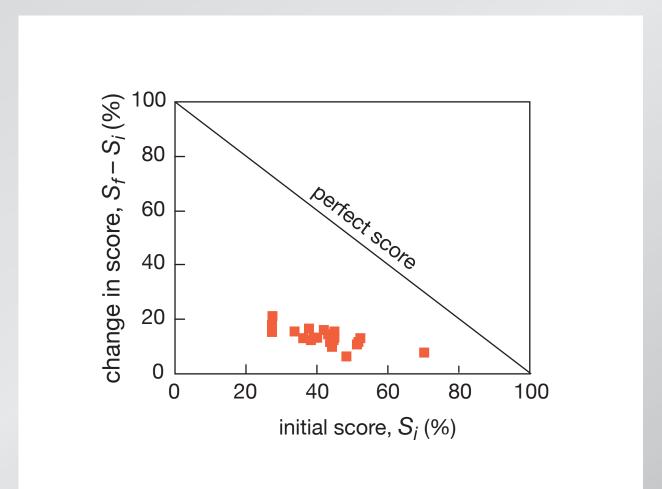

#### education is not just information transfer

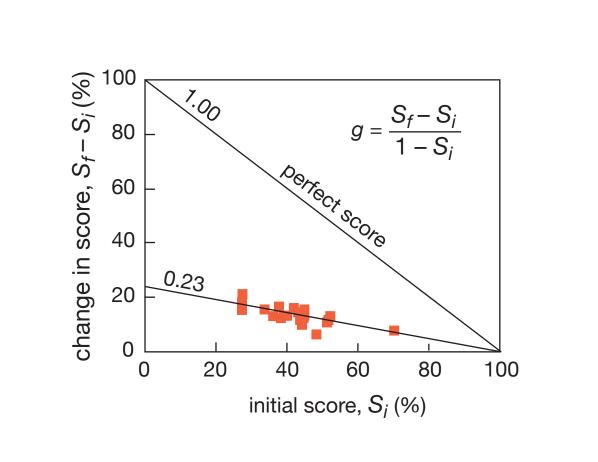

#### R.R. Hake, Am. J. Phys. 66, 64 (1998)

#### only one quarter of maximum gain realized

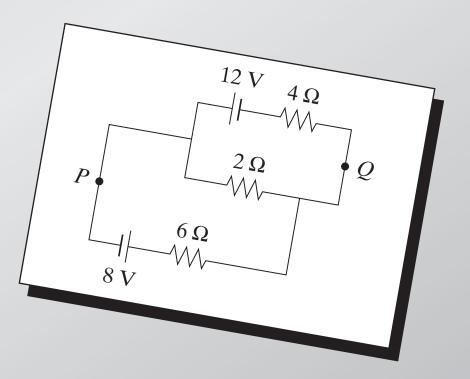

R.R. Hake, Am. J. Phys. 66, 64 (1998)

### not transfer but assimilation of information is key

#### conventional problems misleading

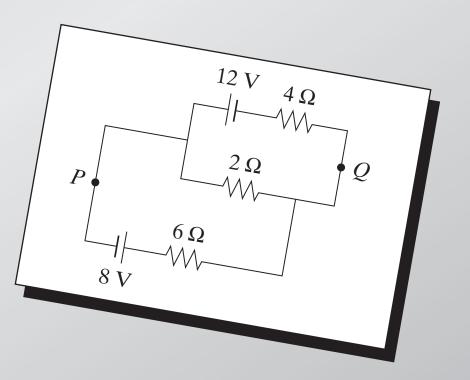

#### conventional problems misleading

**Calculate:** 

(a) current in 2-W resistor

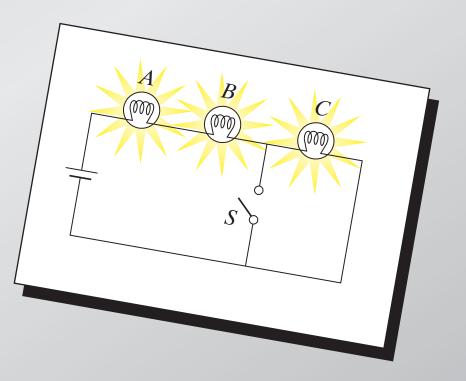

(b) potential difference

between *P* and *Q* 

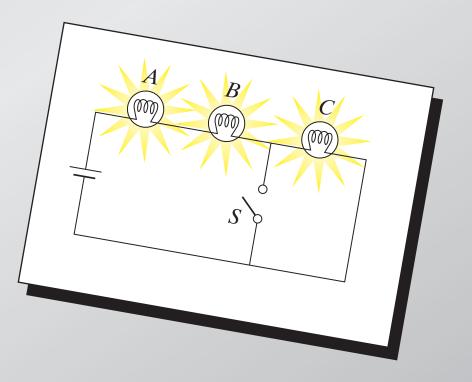

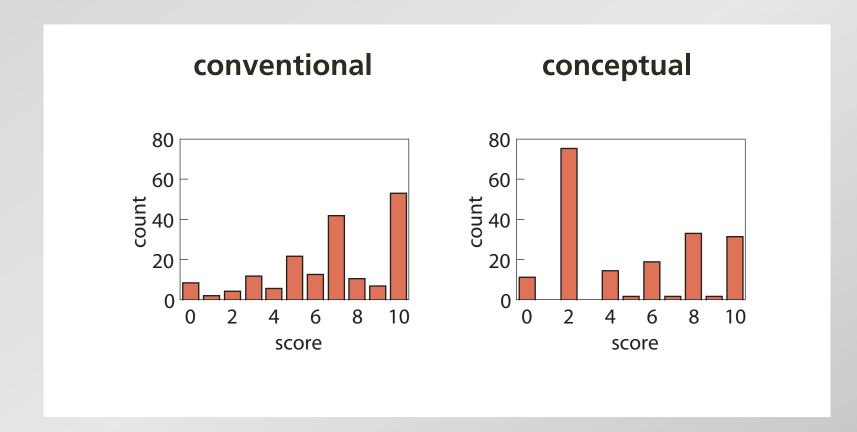

#### are the basic principles understood?

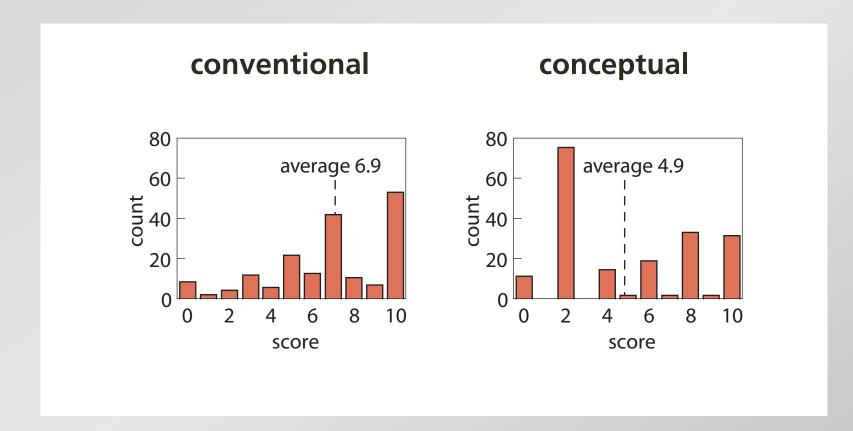

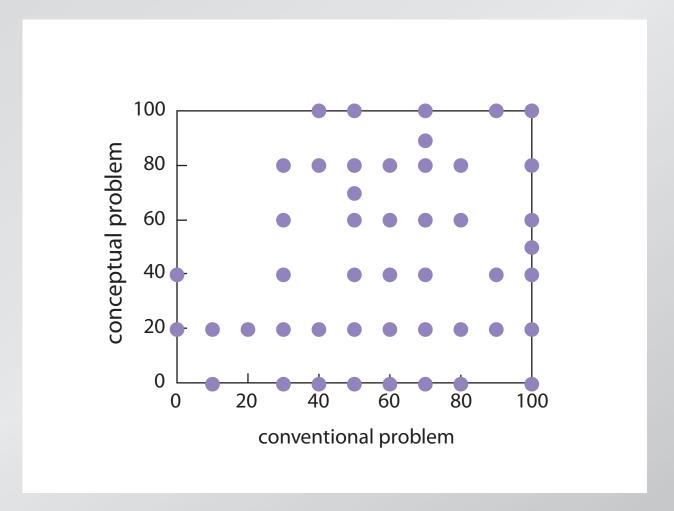

#### are the basic principles understood?

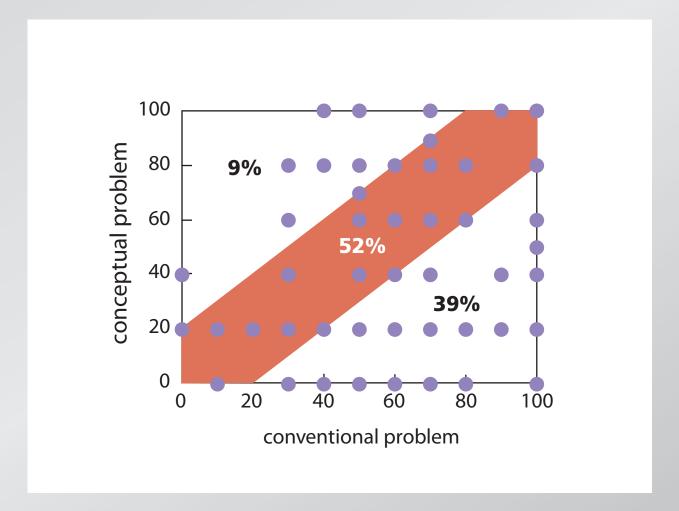

- When S is closed, what happens to:
- (a) intensities of A and B?
- (b) intensity of C?
- (c) current through battery?
- (d) potential difference across
  - A, B, and C?
- (e) the total power dissipated?

#### Give students more responsibility for gathering information...

### Give students more responsibility for gathering information... so we can better help them assimilate it.

Includes Class-Tested, Ready-to-Use Resources

FRIC MALUA

A User's Manual

#### Main features:

- pre-class reading
- in-class: depth, not 'coverage'
- ConcepTests

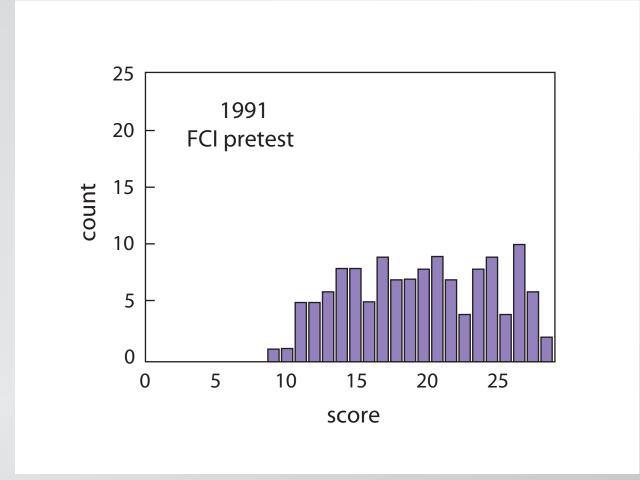

ConcepTest:

- 1. Question
- 2. Thinking
- 3. Individual answer
- 4. Peer discussion
- 5. Revised/Group answer
- 6. Explanation

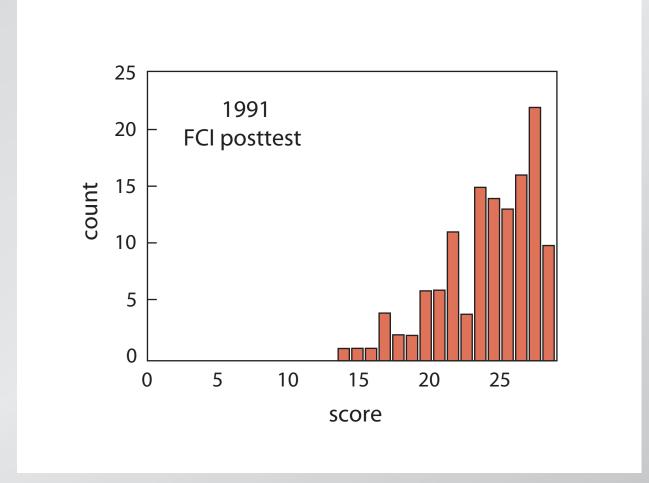

is it any good?

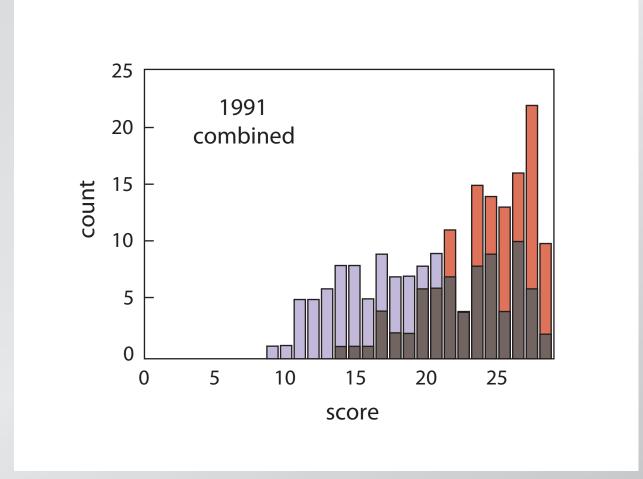

#### first year of implementing PI

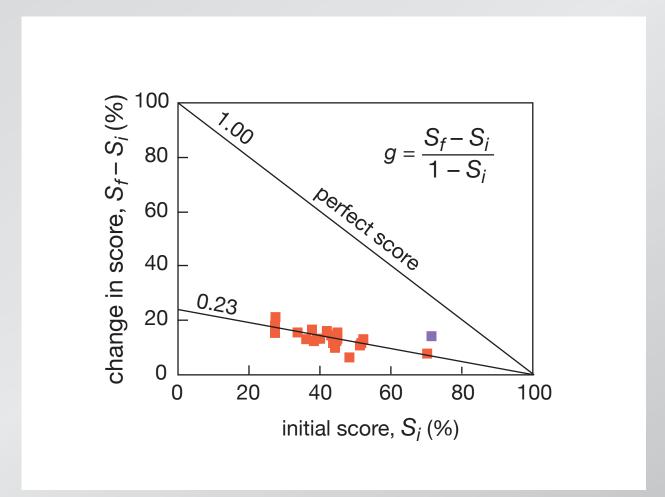

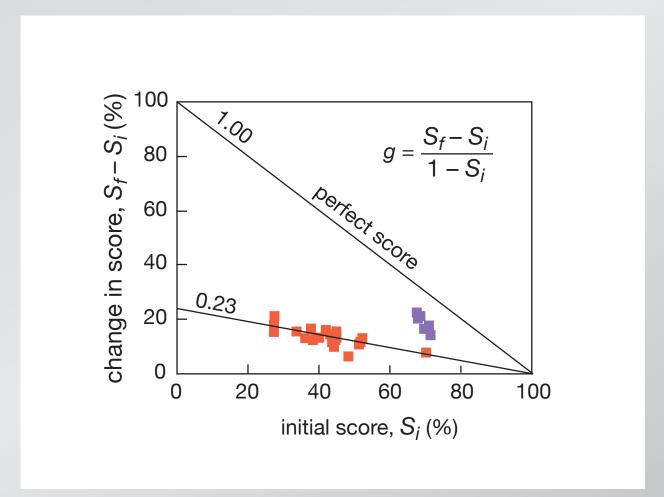

#### first year of implementing PI

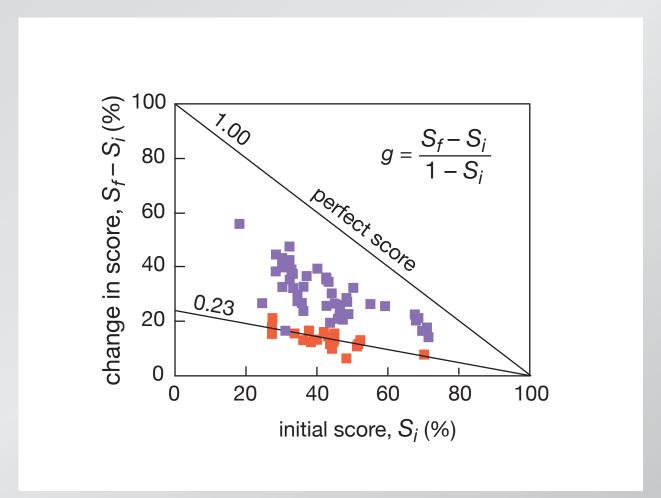

#### first year of implementing PI

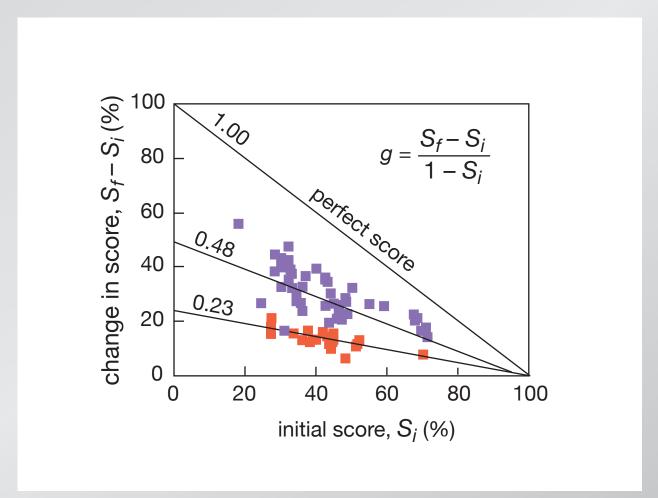

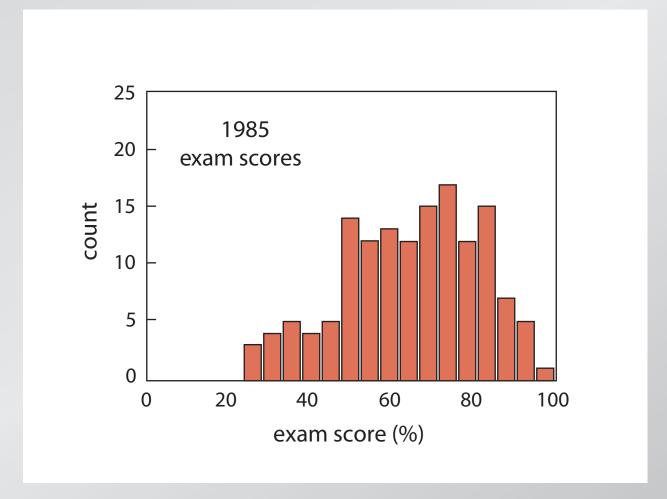

R.R. Hake, Am. J. Phys. 66, 64 (1998)

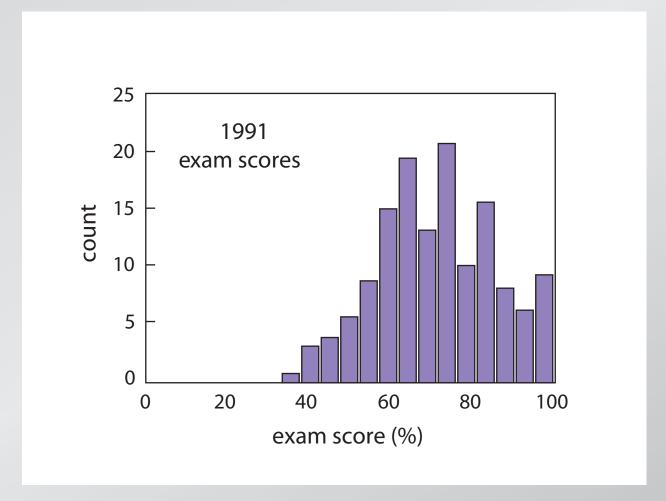

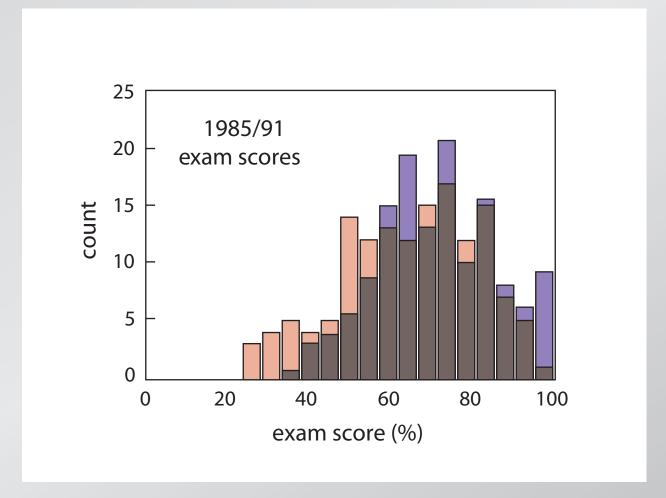

#### R.R. Hake, Am. J. Phys. 66, 64 (1998)

## what about problem solving?

# So better understanding leads to better problem solving!

# So better understanding leads to better problem solving!

(but "good" problem solving doesn't always indicate understanding!)
