

Confessions of a converted teacher

Collins Lecture
Massachusetts General Hospital
Boston, MA, 26 September, 2011

My message

shift focus from “teaching” to helping students learn

Outline

- Results

Education

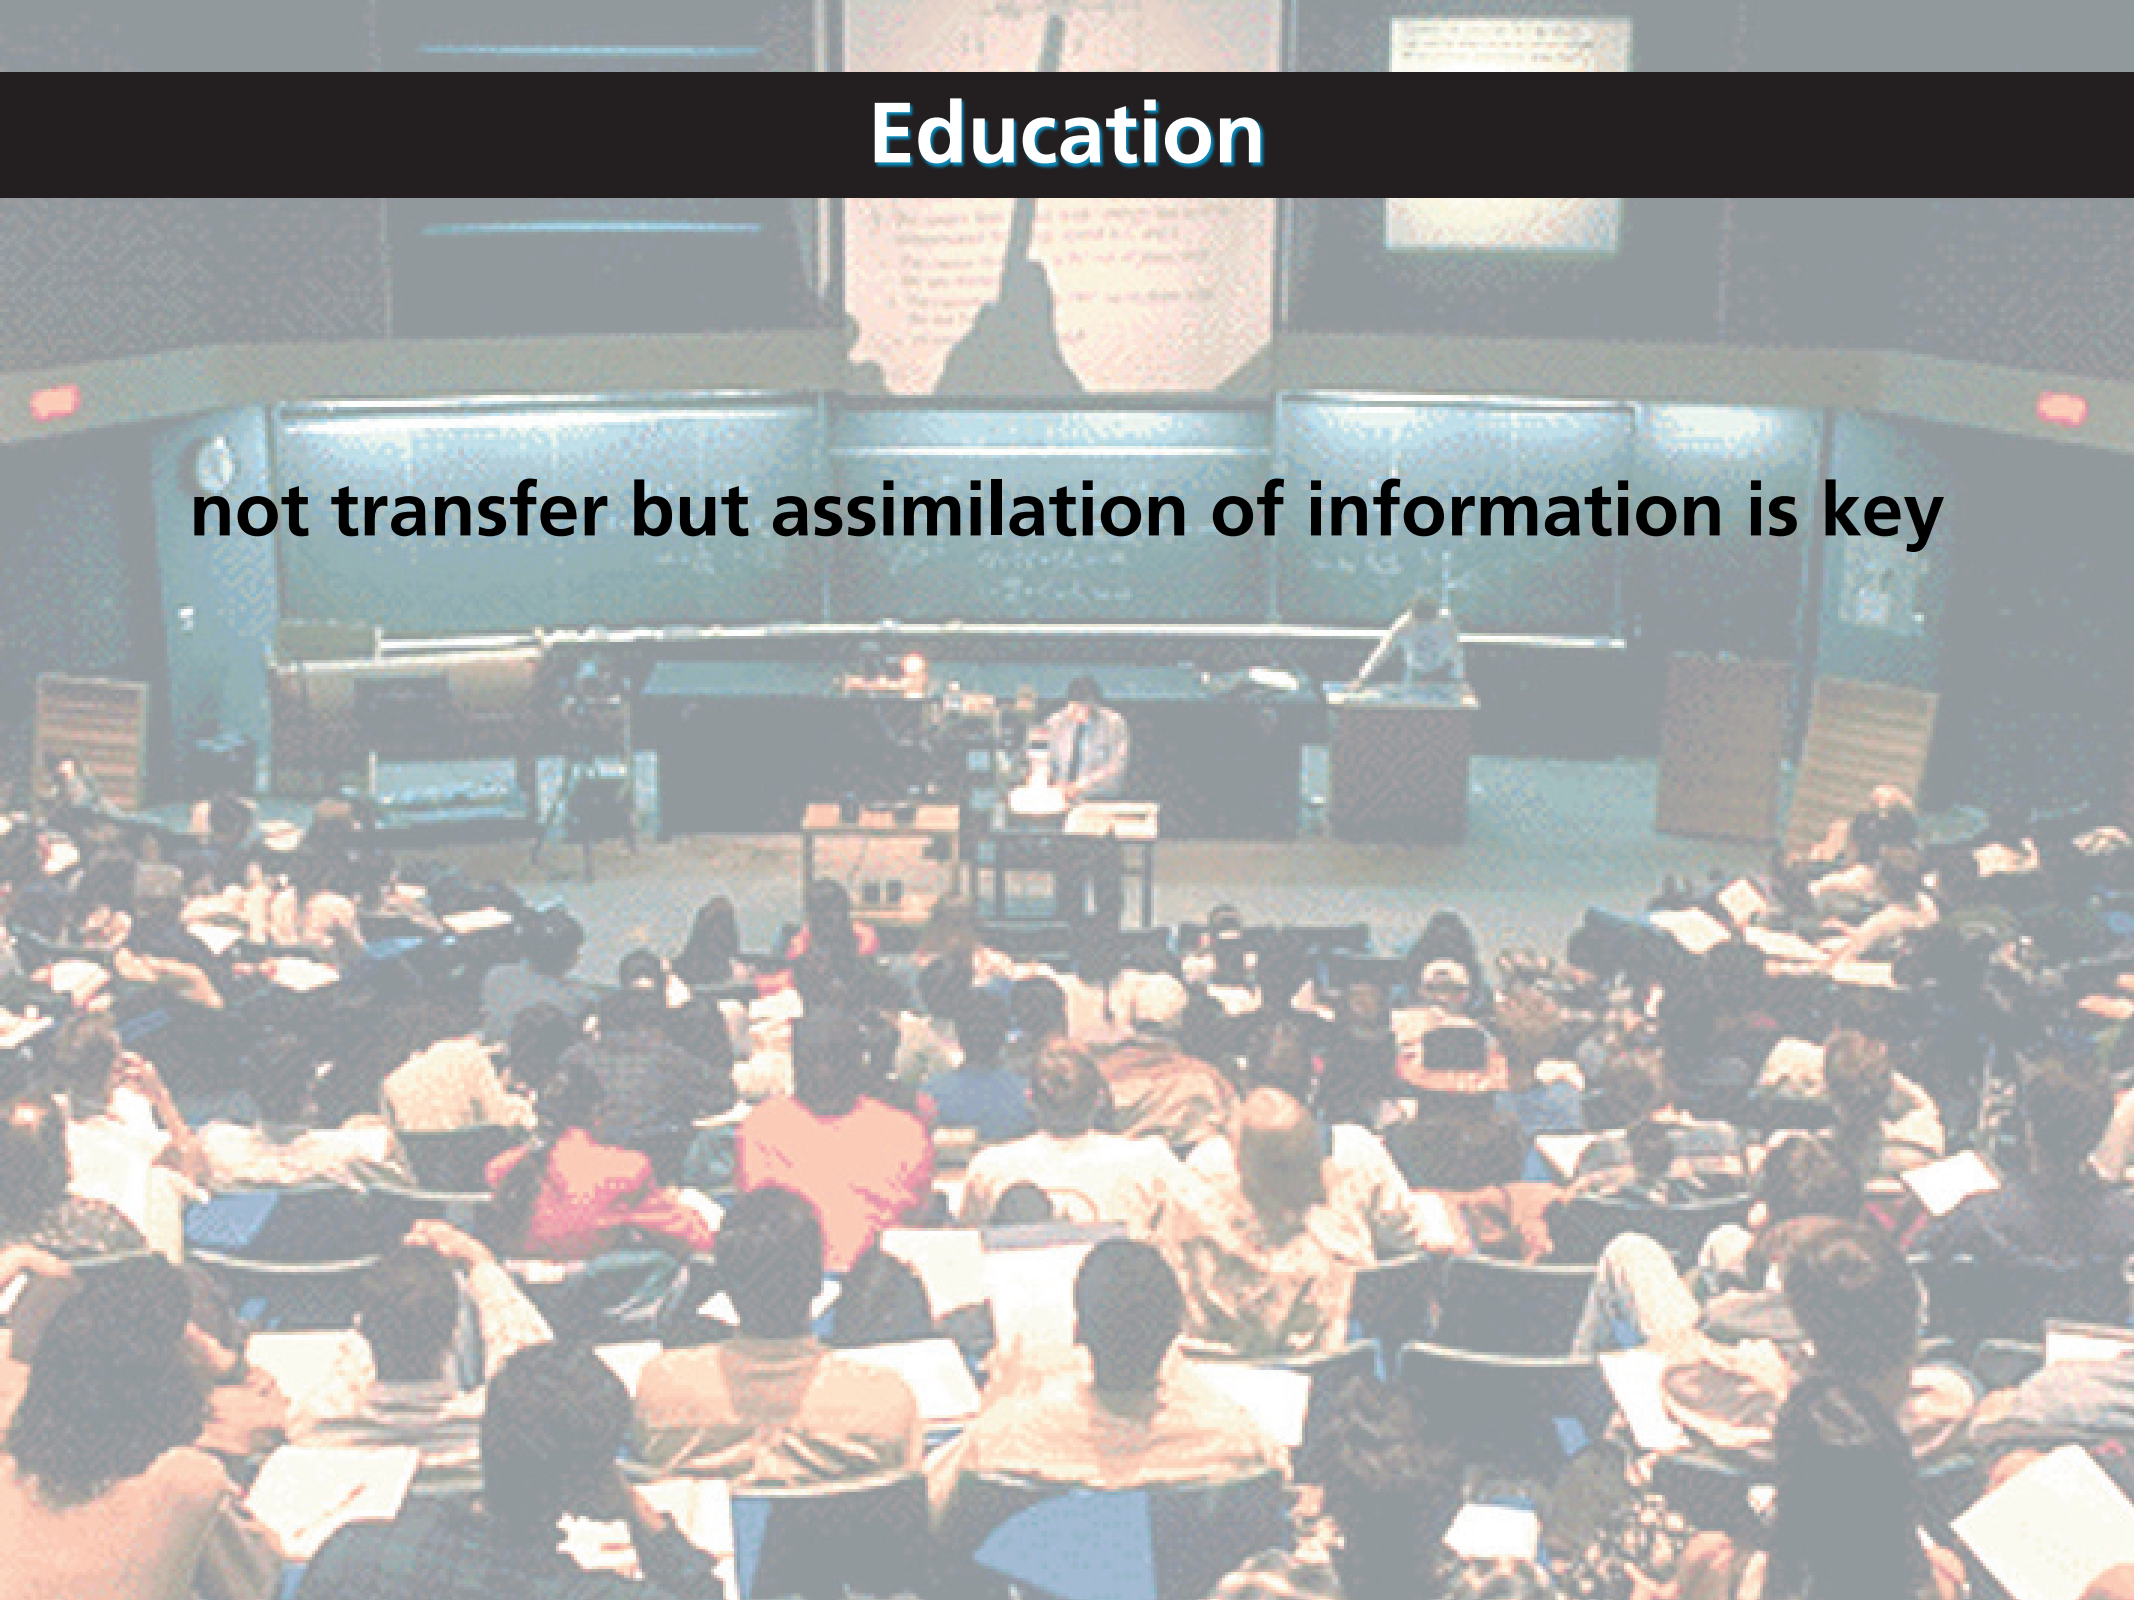

Education

lectures focus on delivery of information

Education

not transfer but assimilation of information is key

Education

education is not just information transfer

Education

education is not just information transfer

Education

education is not just information transfer

Education

R.R. Hake, *Am. J. Phys.* 66, 64 (1998)

Education

only one quarter of maximum gain realized

Education

conventional problems misleading

Education

conventional problems misleading

Calculate:

(a) current in $2\text{-}\Omega$ resistor

(b) potential difference

between P and Q

Education

are the basic principles understood?

Education

are the basic principles understood?

When S is closed, what happens to:

- (a) intensities of A and B ?
- (b) intensity of C ?
- (c) current through battery?
- (d) potential difference across
 A , B , and C ?
- (e) the total power dissipated?

Education

The image shows a large lecture hall from the perspective of the back of the room. Students are seated at long desks, facing a stage. On the stage, a lecturer is standing at a podium, and a large screen displays a presentation. The text "So what should we do?" is overlaid on the image.

So what should we do?

Peer Instruction

Give students more responsibility for gathering information...

Peer Instruction

**Give students more responsibility for gathering information...
so we can better help them assimilate it.**

Peer Instruction

Main features:

- pre-class reading
- in-class: depth, not 'coverage'
- ConcepTests

Peer Instruction

ConcepTest:

- 1. Question**
- 2. Thinking**
- 3. Individual answer**
- 4. Peer discussion**
- 5. Revised/Group answer**
- 6. Explanation**

Results

is it any good?

Summary

**So better understanding leads to better
problem solving!**

Summary

So better understanding leads to better problem solving!

(but “good” problem solving doesn’t always indicate understanding!)

Summary

Traditional indicators of success misleading

Summary

Traditional indicators of success misleading

Education is no longer about information
