Quick survey...

Peer Instruction...

1. Never heard of it.
2. Heard of it, but don't really know what it is.
3. Quite familiar with it.
4. I heard you speak about it so often, I could give your talk!

Quick survey...

Peer Instruction...

1. Never heard of it.
2. Don't use it in my classes, but I'm open to it.
3. Considering using it in my classes.
4. I have used it in my classes a few times.
5. I use it regularly in my classes.

How do we learn?

Think of something you are good at — something that you know you do well.

How do we learn?

Think of something you are good at — something that you know you do well.

How did you become good at this?

How do we learn?

Became good at it by:

1. trial and error
2. lectures
3. practicing
4. apprenticeship
5. other

...and how do we teach?

Education

Education

Some people talk in their sleep.

Education

A large lecture hall with a lecturer at the front and many students in the audience. The room is filled with people, and the lecturer is standing at a podium, addressing the class. The students are seated in rows, and many are looking towards the front. The room has a high ceiling and large windows.

Some people talk in their sleep.

Lecturers talk while other people are sleeping.

Albert Camus

Education

Education

lectures focus on information transfer...

Education

education is not just information transfer

Education

education is not just information transfer

Education

education is not just information transfer

Education

only one quarter of maximum gain realized

Education

not transfer but assimilation of information is key

A large lecture hall with a professor at a podium and students seated at desks. The room is filled with students, and the professor is standing at the front, addressing the class. The text "not transfer but assimilation of information is key" is overlaid on the image.

Education

conventional problems misleading

Education

conventional problems misleading

Calculate:

(a) current in $2\text{-}\Omega$ resistor

(b) potential difference

between P and Q

Education

are the basic principles understood?

Education

are the basic principles understood?

When S is closed, what happens to:

- (a) intensities of A and B ?
- (b) intensity of C ?
- (c) current through battery?
- (d) potential difference across
 A , B , and C ?
- (e) the total power dissipated?

Education

Education

Education

So what should we do?

Peer Instruction

Give students more responsibility for gathering information...

Peer Instruction

**Give students more responsibility for gathering information...
so we can better help them assimilate it.**

Peer Instruction

Main features:

- pre-class assignment
- in-class: depth, not 'coverage'
- ConcepTests

Peer Instruction

ConcepTest:

- 1. Question**
- 2. Thinking**
- 3. Individual answer**
- 4. Peer discussion**
- 5. Revised/Group answer**
- 6. Explanation**

Results

is it any good?

Conclusion

**So better understanding leads to better
problem solving!**

Conclusion

So better understanding leads to better problem solving!

(but “good” problem solving doesn’t always indicate understanding!)
