Philips Glass

The Photographer

### Eadweard Muybridge (1830–1904), born in Kingston-on-Thames, left England to undertake the study of photography and soon became one of the pioneers in the new field.

Le Phototraph Beginning with a series of photographic assignments for the United States government, he became well known as a landscape photographer, principally of the far West and, later, Central America.

#### However, his studies of the human figure and animals in motion, begun in 1872, are the works by which he

Photographer

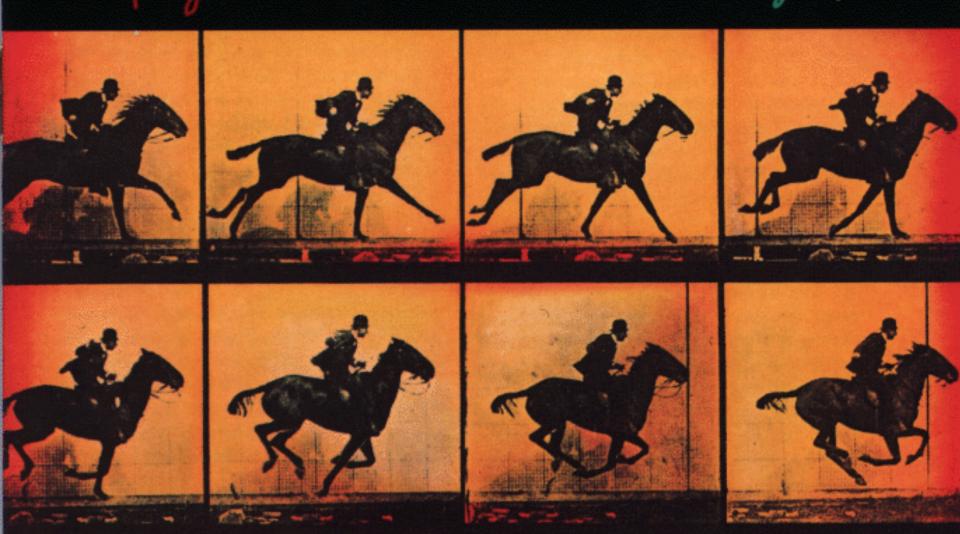

#### is mainly known today.

#### Phototraph This project, which occupied almost the entire remainder of his life, that at one time during its stride a trotting horse has all four feet off the ground.

**Oh, Time, suspend your flight!** and you, auspicious hours, suspend your course! Let us savor the fleeting joy of our most beautiful days!

Alphonse de Lamartine (1817)

**Plenty of unhappy ones down here** beg you; fly by for them! **Along with their days** take the worries that consume them; **Forget the happy ones!** 

Alphonse de Lamartine (1817)

In vain I ask for a few more moments, But time escapes and flees; I say to this night: "Slow down," but dawn will dissipate the night.

Alphonse de Lamartine (1817)
